

How is HOME funded?

HOME does not receive any recurrent government funding and is proudly community owned.

The Queanbeyan and Canberra communities have supported HOME for more than 15 years by volunteering their skills and time, donations and raising awareness about mental health.

To continue to provide a HOME for our valued residents, HOME needs to raise over \$350,000 annually. This model ensures that residents have a stable and long-term home now and into the future.

**A loving HOME
for people living
with an enduring
mental illness**

About HOME

HOME provides a long-term home for 20 people living with an enduring mental illness who would otherwise be at risk of homelessness. Residents live in self-contained units, paying rent and electricity. They also receive the care, dignity, and stability they need to live meaningful lives.

The HOME team supports residents 7 days a week, helping with medications, appointments, and daily living. We collaborate with families, healthcare providers, and community services to ensure each resident's needs are met. Overnight caretakers provide security and support in case of emergencies.

There is nothing more important than shining a light on the dignity of another person.

HOME provides lunch each day cooked by volunteers. Residents come together to enjoy a meal, good conversation and friendship.

Residents know that they are valued and important and deserve a loving and supportive home.

"I am the happiest I have been in 33 years. You think about the people not the money"

- HOME resident

"As a family of someone struggling every day with mental trauma, we are just so grateful to this significant organisation"

- family member of resident

"HOME in Queanbeyan offers a safe and supportive living space full of compassion, warmth and care; where there is a deep respect for the individual journey that each resident is on."

- accredited social worker
